

Verbal Skills for changing Hygienist to 1 hour appts

We are working hard to produce more efficient and effective dentistry for our patients. We want to remain at the forefront of dentistry so that we can deliver a higher standard of care.

As part of this progression we are introducing 1-hour hygiene treatments.
Or *"in order enhance the standards of our care, we are introducing 1-hour hygiene treatments."*

BEFORE – 30 MINS	NOW – 1 HR APPTS
Basic simple clean	Higher level of cleaning with more involved to do a more detailed job
Just to keep infection at bay; doesn't follow a specific plan.	Follows a prescribed Treatment Plan from dentist. This involves taking measurement so you can assess for progress.
	Focus is on specific aspects of your mouth.
	Compliments any complex dentistry and more advanced treatment plans by dentist. This is especially important when you have had treatment like implants, bridges or other specialist work.
	More personalized care

This way of doing things ensures that your dentistry lasts as long as possible and we can work towards a healthy foundation free from infection.
