

# CREATING 'THE PERFECT HEALTHY SMILE' AT THE PERFECT SMILE STUDIOS

When people think of smile makeovers usually the thought is often restricted to a change in ones appearance. However, how much of that smile is based upon a healthy foundation? What is the future of that smile? And how long is it going to last?

The answer lies in a unique boutique dental practice set in the plush countryside of Hertfordshire. The Perfect Smile Studios, housing some of the best specialist's in dentistry, have a philosophy that they provide beautiful natural smiles that are based on a healthy foundation. Amongst their remarkable team is the highly acclaimed, award winning leading UK Cosmetic Dental Surgeon, Dr. Rahul Doshi who holds an impressive portfolio himself. Besides being the main dentist of the popular Extreme Makeover programme (shown on Living TV) he is also the Clinical Editor of a prestigious dental publication Premium Practice Dentistry and continually teaches other dentists at The Perfect Smile Academy.

Dr Doshi believes that dentists should be dedicated to creating mouths that look great, feel great and that

function satisfactorily. He and his team of specialists work consistently towards creating beautifully balanced healthy mouths. Their philosophy has included changing lives and exceeding expectations of all their patients and they do this by creating long lasting healthy smiles. They have achieved this by designing customized dental programmes to suit individual patient needs and wants. Dr Doshi says "Patients are not always looking for the same thing. For example if a patient wants whitening treatment, we will pick and choose the right type of system that would create superior results. There are so many to choose from. The same applies for smile makeovers. We specifically design a smile to suit the individual. This is the secret of our success"

## 10 WAYS THE PERFECT SMILE STUDIOS CREATE THE HEALTHY SMILE

1. **Complete Comprehensive Detailed Assessments** This will give you the confidence and trust that you will be given the best advice regarding suitable treatment options and they will meet your

needs perfectly and satisfactorily. This is a very detailed and lengthy evaluation of your mouth. You will not have experienced anything like it! The Perfect Smile Studios have a team setup to create customized and individual Treatment Plan of Actions. This team includes a Care Nurses, Specialist Orthodontist (straightens teeth for children and adults), a Specialist Periodontist (gum specialist), a Specialist Endodontist, Hygiene Therapists and Hygienists on site that completes their very comprehensive care team.

2. **Cosmetic Smile Makeovers** Their process of construction of a new smile is unique to The Perfect Smile Studios. They use state-of-the-art technology and iconic systems to help design new smiles. Hence your new smile will be correct from every angle and be based upon a sound foundation. These include:
  - Computer-aided smile constructions. This helps the Dr Doshi to analyse your smile from every angle.
  - 3-D hand crafted Trial Smile Models. This gives

you the opportunity to see your smile before working on your teeth.

- Intra-oral Trial Smiles. This allows you to use and see your new teeth BEFORE the construction of the final teeth. This way you have every opportunity to make changes and hence the final result is exactly what you want. Our trial smiles look noticeably like beautiful natural teeth.
- Extensive Bite Analysis technology. This ensures a long-term comfortable bite after the treatment as well. The Perfect Smile Studios dental ethos is based on enhancing and improving your mouths hence they work to create balanced bites.
- They use award winning ceramists with equally advanced products and technology and advanced new-age bonding systems to ensure longevity of your new teeth.

3. **Dental Implants** Dental Implants can be used to replace any missing teeth. You may be offered a combination of treatments that allow Dr.Doshi to replace any missing teeth in a predictable manner giving you back your confidence and smile. You can now avoid the embarrassment of loose dentures and restore your chewing ability. This creates teeth which look, feel and function like natural teeth.

4. **Cosmetic Smile Mini-Makeovers** Occasionally, people are looking for simpler changes to their smile that makes them look better but not so different. Dr.Doshi says that he can create treatment plans that can do as much or as little as you require but still giving you satisfactory results. You can achieve this via a Cosmetic Mini-Makeover which takes advantage of minimal preparation dental techniques.

5. **Finance Plans** They also offer flexible financial help working with a leading company that specializes in financing for dental patients. This means you can afford a larger investment in your dental care by paying in small installments over an extended period of time. There is even an interest-free offer for loans over 12 months!

Indeed you can have your dentistry done now and pay later with some of the newer plans! The Perfect Smile Studios are very good and

specialise in helping you to afford the dentistry you want.

6. **Outstanding Customer Service** The studios are committed to looking after you in every way they can. Offering a range of complimentary services to make your visit with as enjoyable and comfortable as possible. These include painless injections, aromatherapy, your choice of relaxing music on digital wireless headphones and a hand held buzzer so that you can stop treatment at any time and much more.
7. **An Empathic and Understanding Approach** They take the time to listen to your needs and understand your previous dental experiences. This helps to make your visit the best you could ever have.

8. **Special Techniques for Nervous Patients** For patients who are anxious, they offer relaxation sedation techniques or hypnosis to help with overcoming your fears. This allows you to have the important treatment you need in a totally comfortable manner.

9. **Pain-Free, Injection-Free, Drill-Free Laser Dentistry** The Perfect Smile Studios are one of the few practices in the UK that have a comprehensive range of dental lasers. These are used in many ways for patients offering the very latest in dental technology. Imagine having teeth done without an injection or the drill!

10. **Confidence and Trust** This is perhaps the most important reason. Dr. Doshi and his partners will advise and guide you as though you were their own family member. You will become part of their patient family where they will continue to respect your long-term dental care.

The best thing about this new approach is that it doesn't matter what your mouth is like right now! The Perfect Smile Studios can offer a wide range of treatments and services that will have you feeling back to your normal self in no time at all.

**You can also take advantage of their FREE Personal Consultations and you can talk to them about how they can help you. Call on 01992 552115.**

Dr Doshi of The Perfect Smile Studios & Academy says: " We have treated many people in our practice and also on the TV programme Extreme Makeover UK. It is amazing to see the transformation in people when they have increased inner confidence due to having corrective comprehensive dental treatment. People can easily look 10 years younger. So now they can LOOK like they FEEL"
